GUT-BRAIN
CONNECTION*

Begin your journey to a healthier gut and healthier mind with Amare's flagship award-winning product pack - The **Amare FundaMentals Pack**.* For years, science has told us that mental wellness was a result of what was going on in our head. However, emerging science has shown that it's not all about what's happening in our primary brain. In fact, our gut produces more neurotransmitters, such as dopamine and serotonin, than our brain. These so-called "feel-good" neurotransmitters regulate our mood and affect our overall mental wellness. This is why modern science has labeled our gut as our 2nd brain.

Our gut is a very important component of the multi-directional communication network known as the gut-brain axis (GBX). The GBX connects our gastrointestinal system (gut), nervous system (brain), and immune system (axis) with a vast array of cellular and biochemical messengers throughout the entire body, including the microbiome, hormones, cytokines, and neurotransmitters.

Amare's **FundaMentals** products are most effective when used together as a coordinated and synergistic "system" to optimize microbiome balance and communication within all aspects of the GBX.*

For best results and added convenience, **take all three FundaMentals products together at breakfast**. Consuming all three products together to start your day will support all three components of the gut-brain axis:

1. MentaBiotics® (Gut)
2. MentaFocus® (Brain)
3. MentaSync® (Axis)

Improve your mental wellness by
taking control of your gut-brain axis
with the Amare FundaMentals Pack.*

- 1 Connects the gut and brain to enhance the communication between both brains*
- 2 Ingredients shown to improve mood and reduce tension in human clinical trials*
- 3 Supports the growth and vitality of a range of beneficial gut bacteria*
- 4 Improves psychological vigor (physical energy, mental acuity, and emotional well-being)*

SCIENCE & INFORMATION

amareTM FUNDAMENTALS PACK

THE FUNDAMENTALS PACK IS CLINICALLY PROVEN TO:

Increase GOOD Bacteria in the Gut

28% higher Lactobacillus

30% higher Bifidobacterium

17% higher overall composite score[†]

[†]The composite score is an overall average of many different aspects of microbiome balance, including Bifidobacterium, Lactobacillus, Akkermansia, Firmicutes/Bacteroidetes (F/B) ratio, and others.

which leads to...

INCREDIBLE BENEFITS!

Lower tension by 45%*

Lower depression by 55%*

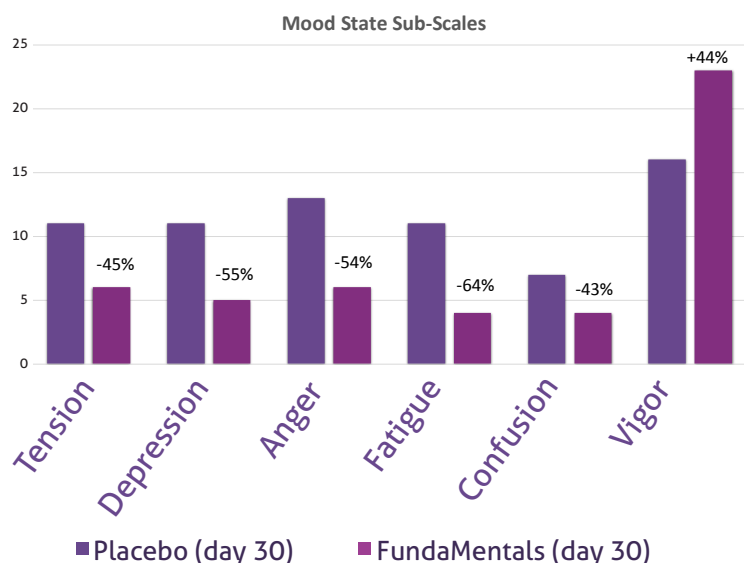

Lower anger by 54%*

Lower fatigue by 64%*

Lower confusion by 43%*

Higher vigor by 44%*

The subjects in this study were "healthy stressed" individuals - meaning they represent the vast majority of the population who have stress, fatigue, brain fog, and the modern 21st century "syndrome of the blahs".

Following 30 days of supplementation with the Amare FundaMentals Pack (MentaBiotics, MentaFocus, and MentaSync), the FundaMentals group showed significant improvements (compared to Placebo) in populations of good gut bacteria and overall microbiome balance, as well as significantly better psychological mood states.
