

## AMARE EDGE+™ FREQUENTLY ASKED QUESTIONS

### 1. What is the difference between Amare EDGE+™ and the original Amare EDGE® formula?

Amare EDGE+ is a supercharged nootropic based on our original Amare EDGE formula. In addition to containing all the beneficial ingredients found in Amare EDGE, our enhanced Amare EDGE+ formula features Lion's Mane and Citicoline for added neuron regeneration and a healthy memory. The Mango flavor of Amare EDGE+ also includes natural caffeine from Green Coffee Beans for additional plant-based energy and motivation.\* Delicious on its own or mixed with MentaBiotics® in our new simplified Amare Happy Juice® Pack, Amare EDGE+ gives you the motivation to crush your to-do list and tackle the day with ease.\*

### 2. What is the difference between Amare EDGE+ Mango and Amare EDGE+ Watermelon or Grape?

Amare EDGE+ Mango contains natural caffeine from Green Coffee Beans for additional plant-based energy and motivation. The Grape and Watermelon flavors of Amare EDGE+ are both caffeine free.\*

### 3. How and when should I take Amare EDGE+?

Amare EDGE+ is a plant-based nootropic you can drink whenever you need motivation. Please note that those sensitive to caffeine should refrain from drinking the Mango flavor near bedtime.

Simply mix one stick pack of Amare EDGE+ in 8 oz of water. Do not drink more than four stick packs per day.

For comprehensive gut-brain axis support, we recommend drinking Amare EDGE+ in your Amare Happy Juice. Drink daily for compounding benefits.\*

### 4. Is Amare EDGE+ vegan?

Yes. Amare EDGE+ is vegan.

### 5. Is it gluten free?

Yes. Amare EDGE+ is gluten free.

### 6. Is it sugar free?

Yes. Amare EDGE+ is sugar free.

### 7. Is it free from artificial preservatives or flavors?

Yes. Amare EDGE+ contains no artificial preservatives, colors, flavors, or sweeteners. It's also non-GMO and free from fillers.

### 8. Can I take Amare EDGE+ while pregnant?

Consult your physician if you are pregnant, nursing, taking a prescription drug, or have a medical condition before taking Amare EDGE+.

### 9. Can children drink Amare EDGE+?

The Amare product line was designed for adults. For products that can be used by children (under the age of 18), please consider our Amare Kids line.

### 10. Can I drink Amare EDGE+ while on prescription medications?

Prior to taking new supplements, we recommend checking with your doctor or healthcare professional if you take any prescription medication or have a medical condition.

### 11. What can I expect when taking Amare EDGE+?

The ingredients in Amare EDGE+ work synergistically to support mental flow, motivation, and enhanced neuron regeneration. When you drink it daily, Amare EDGE+ optimizes the brain for body and mind endurance and healthy memory so you can crush your to-do list and tackle the day with ease.\*
