

AMARE KIDS HAPPY JUICE™ FREQUENTLY ASKED QUESTIONS

Q: What is Amare Kids Happy Juice and how does it work?

A: Amare Kids Happy Juice focuses on supporting one of the most essential building blocks for wellness – the gut-brain axis (GBX). Packed with comprehensive gut nutrition, this tasty daily drink promotes stress resilience and provides targeted nutrients to the brain for better motivation, focus, and cognitive well-being – supporting your little ones from head to toe as they grow. Our advanced sugar free formula features key probiotics, prebiotics, and phytobiotics, providing your child with support for a healthy gut microbiome and you with peace of mind. Its innovative blend of neuro-nutrients, such as Mango Leaf, Palm Fruit, Lychee Fruit, and Suntheanine®, contributes to mental flow, cognitive function, endurance, and an alert state of relaxation.*

Q: How and when should Amare Kids Happy Juice be taken?

A: Simply mix one stick pack into 8-16 oz of water or beverage of choice. Adjust according to desired taste. This product can be taken any time of day, although we suggest drinking it in the morning as the perfect start to a day filled with school or activities. Drink daily for compounding benefits.*

Q: What is the suitable age range for drinking Amare Kids Happy Juice?

A: Amare Kids Happy Juice is recommended for children ages 4 to 17.*

Q: Is it sugar free?

A: Yes, Amare Kids Happy Juice is sugar free.

Q: Is it caffeine free?

A: Yes, Amare Kids Happy Juice is caffeine free.

Q: Is it vegan?

A: No, Amare Kids Happy Juice is not vegan.

Q: Does it contain dairy or soy?

A: Although there is no significant amount of dairy or soy in the final product, Amare Kids Happy Juice contains probiotic strains and a prebiotic (gos) that are produced using milk and soy as a processing aid.

Q: Is it gluten free?

A: Yes, Amare Kids Happy Juice is gluten free.

Q: Does it contain nuts?

A: While this product does not contain nuts, it does contain the pulp and skins of Lychee Fruit, which could potentially trigger a tree nut allergy. For children with tree nut allergies, we recommend consulting with their physician before using this product.

Q: Does it contain artificial flavors or sweeteners?

A: No, but it's still delicious! Amare Kids Happy Juice is naturally flavored with mixed berries and pomegranate. It's also naturally sweetened by katemfe fruit extract and monk fruit, creating a refreshing flavor profile your kids will actually want to drink.

Q: What is the difference between Amare Happy Juice® and Amare Kids Happy Juice?

A: Amare Happy Juice is a gut-brain axis system formulated for adults 18 years and older, while Amare Kids Happy Juice is specifically formulated with the proper ingredients and dosages for children ages 4-17. While the adult version combines two stick packs (Amare EDGE+™ and MentaBiotics®), we've packed all the berry-licious benefits of Amare Kids Happy Juice into one stick pack – making it a breeze for busy kids and parents to add to their daily routine, even when they're on the go.*

Q: Can a child take Amare Kids Happy Juice while on prescription medications?

A: As with all supplements, we recommend checking with your child's doctor or healthcare professional beforehand if they are taking any prescription medication or have a medical condition.

Q: Can Amare Kids Happy Juice be taken with other products within the Amare Kids® line?

A: Yes! All products in the Amare Kids line were designed to work together, allowing you the space to mix and match different formulas and benefits according to the unique needs of your child. For a routine that includes multiple formulas, we recommend starting the morning with Amare Kids Happy Juice for comprehensive gut-brain axis nutrition that helps your child take on their day with a happy tummy and sharp mind. Add in our other more targeted formulas throughout the day as needed. For example, Kids Mood+® is the perfect after-school homework companion, and Amare Kids Calm™ is a dream for winding down at the end of the day.*
