

MENTA BIOTICS®

What It Is

Specific strains of healthy bacteria (probiotics) and specialized fibres (prebiotics) that play an important role in your overall mental and physical well-being.

How It Works

MentaBiotics® provides gut support through our MW3™ Prebiotic Blend, which is specifically formulated to feed the bacteria in our MW3™ Probiotic Blend.

Why You'll Love It

- Supports mental wellness by populating the microbiome with specific strains of probiotics and prebiotics.
- Supports the growth and vitality of a range of beneficial gut bacteria.
- Helps to promote healthy gut flora.
- Promotes a healthy mood balance and help to reduce feelings of stress.

Medicinal Ingredients (Each serving contains):

Transgalactooligosaccharides	1.8 g
Partially hydrolysed guar gum	1.2 g
Iso-maltooligosaccharides	2.8 g
Lactobacillus helveticus R0052	1.5.. billion CFU
Bifidobacterium longum subsp. longum R0175	0.9 billion CFU
Lactocaseibacillus rhamnosus R0011	0...6 billion CFU
L-Theanine	2.5 mg
Apple (Malus domestica 250-300:1 fruit extract; 60% polyphenols)	25 mg
Monterey pine (Pinus radiata 100:1 stem bark extract; 80% proanthocyanidins)	10 mg
Grape Seed (Vitis vinifera 10-15:1 seed extract; 85% oligomeric proanthocyanidins)	15 mg
Artichoke (Cynara cardunculus 8-14:1 leaf extract)	18.75 mg
Ginger (Zingiber officinale 18-28:1 rhizome extract)	3.75 mg
L-Glutamine	1.0.0 mg

MW3 Probiotic Blend

Our blend contains unique and specific probiotic strains targeted to support mental wellness.

MW3 Probiotic Strains:

- Lactobacillus rhamnosus R0011 — Promotes healthy stress response by helping to reduce the symptoms of mild to moderate stress.*
- Bifidobacterium longum R0175 — Enhances calmness by helping to reduce feelings of stress.
- Lactobacillus helveticus R0052 — Improves mood by supporting a healthy mood balance.

MW3 Prebiotic Blend

Our MW3 Prebiotic Blend provides optimal gut support by feeding the specific mental wellness probiotic strains found in our MW3 Probiotic Blend.

MW3 Prebiotic Fibres:

(Iso-Malto-Oligosaccharides) — Contains a combination of naturally occurring prebiotic plant fibres that are clinically shown to improve the growth of specific probiotic strains

(Galacto-Oligo-Saccharides) — Resets and increases friendly gut bacteria and supports microbiome balance. Is highly effective and a natural way of increasing preferred bacteria in your gut. Plays an important role in feeding Bifidobacteria probiotic strains
