

SUNSET®

What It Is

What sets Sunset apart from other supplements is its unique blend of ingredients. Each ingredient is carefully selected and sourced to ensure a maximum effectiveness. The Vitamins and nutrients in Sunset are also easily absorbed by the body, so you can be sure you are getting the most out of each dose.

Sunset delivers Vitamin E in its natural form (D-alpha tocopherol), well-known for protecting cells from oxidative stress. Additionally, it provides Vitamin A, essential for maintaining normal vision, skin health, and immune function.

Vitamin D3, often called the "Sunshine Vitamin," contributes to the maintenance of strong bones, normal immune function, and plays a role in maintaining overall mental well-being. Sunset contains Vitamin A in the form of Retinyl Palmitate, a form of Vitamin A known for its efficient absorption and utilization by the body. Retinyl Palmitate provides Vitamin A directly, unlike beta-carotene which the body must convert. Vitamin A contributes to maintaining normal vision, healthy skin, and supports normal immune system function.

Sunset also contains Omega-3 fatty acids EPA and DHA, which contribute to normal heart function (beneficial effects are obtained with a daily intake of 250 mg EPA and DHA). DHA additionally supports normal brain function and vision (beneficial effects are obtained with a daily intake of 250 mg DHA).

Choose Sunset to confidently nourish your body each day with essential nutrients like Vitamins A, D, E and Omega-3 fatty acids.

How It Works

Omega-3 fatty acids are essential nutrients that cannot be naturally produced by the human body and must be obtained through diet or supplementation. Amare Sunset provides high-quality Omega-3 fatty acids (EPA and DHA) sourced responsibly from wild fish, including salmon, recognized for its natural purity. Make Amare Sunset part of your daily health routine to support these essential aspects of your well-being and to promote vitality from within.

Amare Sunset combines carefully selected nutrients including Omega-3 fatty acids (EPA and DHA), Vitamins E, A and D3, along with Astaxanthin, forming a valuable addition to your daily nutritional routine.

Why You'll Love It

Sunset is a proprietary combination of EPA and DHA derived from Wild Fish Oils (including Wild Salmon among other wild fish), Vitamin A, Vitamin E and the essential Vitamin D. Sunset features fish oil as source of Omega-3 (EPA and DHA), the powerful Vitamins A, D, and one of the major versions of Vitamin E, D-Alpha – Tocopherol, from rice bran oil.

With Sunset, you can feel confident that you are providing your body essential nutrients to support your overall well-being. A carefully formulated, convenient blend of Omega-3 fatty acids, Vitamins E, A, D3, and Astaxanthin; Sunset is your daily partner for balanced nutrition. Take control of your wellness today and incorporate Sunset into your daily routine.
